

Black Hole Infantry instructions

step 1

glue
toothpick
X-Acto knife
rubber cutting mat

parts (printed on 200 gsm paper)

P. 1/1

Print the parts on thicker paper, and gather your glue, knife and cutting mat and any other tools you think you could use.

step 2

Glue together the sides of part 1 and close the top.

step 3

part 2
part 3

Glue parts 2 and 3 into small cylinders, and glue them into the holes on the bottom of part 1.

step 4

part 4
part 5

Assemble parts 4 and 5...

step 5

part 4
part 5

...and then glue them to the legs; make sure the feet point slightly to the right as shown here.

step 6

part 6

Cut out and assemble part 6 and then glue it to the legs.

step 7

part 7
part 8
part 9

Assemble parts 7-9 and glue them together...

step 8

parts 7-9

...and then glue the arm to the body, taking care the angle of the hand is more or less the same as in the picture.

step 9

part 10
part 11
part 12

Do the same for parts 10-12...

step 10

parts 10-12

...and then glue them to the other side of the body, again taking care of the angle of the hand.

step 11

I found easiest to glue together one side of part 13 first...

step 12

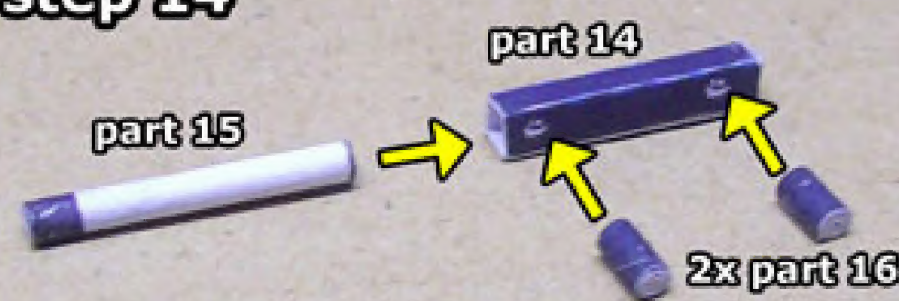

...and then the other side, leaving the "lid" for last.

step 13

Now press the helmet firmly onto the body as shown in this picture.

step 14

Assemble part 14 and roll up parts 15 and 16 as tight as possible.

step 15

Glue together the individual parts of the machine gun...

step 16

**Black Hole
Infantry**

...and then place it in the soldier's hands!

Thank you for building a Ninjatoes' papercraft model!
